1. Organization

We apply different methods of teamwork and communication. We meet for regular meetings at least once a week where we solve current problems together. Team manager enters subtasks in our bug-tracking system by tickets. All important documents as well as semi-final we places on the trac. Each team member records his work into the project log. We use service Google Wave as a main communication tool.

2. Team Management

Petr Vrchlavský

- o team manager
